

Summit Technology Rental Program

Summit Technology rents complete power analysis systems. We maintain a good selection of rental systems here at the factory. Rental products can be ordered as complete systems, bundled with all the accessories you need to get the job done. All rentals are monthly, paid in advance.

Rental Packages

Complete 1000 amp System

Everything you need for analysis of systems from 1-600 Vrms, 1-1000 Arms. Includes PowerSight PS3000, 4 clamp-on current probes, software, DC power supply, and carrying case [PS3000, HA1000(4), DXV, LOG, HAO, PCCA and CAS3].

Rent the PK314 for \$500/month.

If you need the extended memory option [MEM], rent the PK314M for \$550/month.

PK314 - \$500/month

Complete 3000 amp System

Everything you need for analysis of systems from 1-600 Vrms, 10-3000 Arms. Includes PowerSight PS3000, 4 flexible current probes, software, DC power supply, and carrying case [PS3000, FX3000(4), DXV, LOG, HAO, PCCA, and CAS3].

Rent the PK334 for \$600/month.

If you need the extended memory option [MEM], rent the PK334M for \$650/month.

PK334 - \$600/month

If you like the product and want to purchase it, the first month's rent can be applied to the immediate purchase of a system.

Ordering

Visa, MasterCard, Company Check or Purchase Order (with credit approval) can be used to pay for a rental system. Please call in advance since system availability varies daily. We are looking forward to your business.
